

Marketing Performance Report

Aug 1 – 31, 2025 compared to Jul 1 – 31, 2025

norton odonnell

This "Marketing Performance Report" breaks down the KPI's and metrics achieved in the month of August. The focus is both on paid ads as well as organic social media performance.

Table Of Content

- Google Ads Performance
- Instagram Performance
- LinkedIn Performance
- Meta Ads Performance
- Key Takeaways

Google My Business Performance

Google My Business Performance

Key Insight: Although total interactions dropped by 10.2%, a **24.4% increase in phone calls** and **15.4% rise in profile views** suggest stronger intent from those engaging with our listing.

Glossary

- Average rating** — The current average star rating of your Google reviews (lifetime metric).
- Total review count** — The cumulative number of reviews on your Google profile (lifetime metric).
- New Reviews** — The number of new reviews received during the reporting period.
- Total Interactions** — The total actions taken on your profile: Phone calls + Direction requests + Website visits (during the period).
- Direction Requests** — The number of times users tapped “get directions” to navigate to your location.
- Phone calls** — The number of tap-to-call actions from your profile.
- Views** — The total times your Business Profile was viewed on Google Search or Google Maps.
- Website visits** — The number of clicks from your profile to your website.

Google Ads Performance

Google Ads Performance

Key Insight: The increase in Google Ads budget sometimes does more damage than good, but optimisations will be made to try lower the cost/conv. If conversion metrics continue to decline, then I will reallocate some of the extra budget to Meta for boosting.

Glossary

- **Cost:** The total amount spent on Google Ads over the reporting period.
- **Clicks:** The total number of times users clicked on your ad.
- **Impressions:** The number of times our ad was seen.
- **Conversions:** The number of actions completed by users after clicking our ad, such as Phone calls, Direction requests or Lead form submissions. This reflects campaign success.
- **Average CPC (Cost Per Click):** The average amount paid for each click on our ad. It helps us understand the cost-efficiency of our traffic.
- **Cost per Conversion:** The average cost to acquire one conversion. A lower value indicates a better return on our advertising investment.
- **Conversion Rate:** The percentage of clicks that result in a conversion. A higher conversion rate indicates better ad performance and landing page experience.
- **CTR (Click-Through Rate):** The percentage of people who saw our ad & clicked on it. Calculated as (Clicks ÷ Impressions) × 100. A key indicator of how relevant and compelling our ads are.

Instagram Performance

Key Insight: Organic reach dropped significantly, but paid video content and post engagement soared—suggesting success with boosted posts and Reels.

Glossary

- **Followers:** The number of new people who have followed your profile.
- **Views:** The total number of organic users who have interacted with your Profile
- **Reach:** The number of unique users who have seen your content.
- **Engagement:** The number of organic saves, comments and shares on your posts.

The Black Instagram logo refers to metrics that came through paid Instagram posts.

- **Post Engagement:** The number of paid likes, comments and shares on your posts.
- **Post Reactions:** The number of users that express their feelings towards a post/story without leaving a comment.
- **Video Total Play Time:** The total amount of time users spent watching our reels.
- **Video Plays at 50%:** The number of users that watched more than 50% of a Reel.

Meta Advertising Performance

Meta Ads

Glossary

- **Amount spent:** The total amount spent on Meta Ads.
- **Impressions:** The total number of times our advertisement has been displayed on users' screens.
- **Reach:** The number of people who saw a sponsored story or Ad about your Page
- **CPM:** The cost per thousand impressions.
- **Link Clicks:** The number of times users click on a link within your ad.
- **Cost per Post Engagement:** The cost of each Engagement action on a post.
- **CPC:** The cost per click
- **CTR:** Click-through rate

Some metrics below say they have increased/decreased by infinity in comparison to the previous month, this is because there is not enough previous data in the account to compare it to.

August 2025 Key Takeaways

- [Google My Business](#)
 - Although total interactions dropped by 10.2%, a **24.4% increase in phone calls** and **15.4% rise in profile views** suggest stronger intent from those engaging with our listing.
 - While Swydo suggests we only gained **3 new** Google reviews in **August**, I know we had **under 199 reviews** in **July** according to some notes I had written down.
- [Google Ads](#)
 - Conversions held steady at **42** (+2.4%) with **CTR more than doubling** to **1.68%** (+147.0%), despite a **drop in clicks** (~11.5%).
 - **Conversion rate** rose **32.5%** to **1.12%**, and **Cost per Conversion dropped 20%** to **ZAR 292.38** — indicating improved performance.
 - **CPC increased** to **ZAR 3.55** (+14.8%), which will be monitored going into September.
- [Instagram](#)
 - **Views up 34.7%, reach up 25.7%, and post engagement up 19.8%.**
 - **Link clicks dropped by 21.3%**, suggesting story CTA placement may need review.
 - **Engagement dipped slightly** by **-1.9%**, but Reels saw a huge boost in total play time (up **26.78M%**) to **3 days, 2 hours, 23 mins**, this huge percentage increase is because we didn't post many videos/reels in July.
 - **Follower count** has organically climbed back over **40k** — an encouraging recovery from a prior dip.
- [Meta Ads](#)
 - Generated **2,428 on-platform leads** (+9.8%) with **CPC holding at ZAR 0.78.**
 - **CTR held at 3.33%**, and **cost per post engagement fell by 79.9%** to **ZAR 0.11**, showing strong cost efficiency on our boosted posts.
 - **Impressions up 14%** to **679.76K**, despite a **8.6% drop in reach** — efficient scaling.
 - Top boosted posts: **Monthly Specials, Bring a Friend,** and **Women’s Day.**
- [LinkedIn](#)
 - **Engagements up 181.7%**, with **unique visitors up 2500%** and **page clicks up 328.6%.**
 - Posts like “**INFUSE YOUR WORLD**” and **product teasers** drove strong interaction.
 - **Engagement rate reached 7.46%**, driven by product-centric and themed posts, outperforming July by a wide margin.
