Google My Business Performance

Google My Business Performance

Key Insight:

Google My Business performance showed an overall decline month-on-month, with total views **5,417** (-32.5%) and total interactions **1,079** (-21.0%) both decreasing. Direction requests **540** (-20.9%), phone calls **69** (-15.9%) and website visits **470** (-13.1%) also trended downward, indicating reduced discovery and intent actions, this reduced discovery is likely due to the lower spend on Google Ads this month.

On a positive note, our average rating remains strong at 4.4 with a total of 235 reviews, reinforcing solid brand credibility despite new reviews slowing to 4 in the month of February.

Google Ads Performance

Google Ads Performance

Key Insight:

Google Ads delivered significant growth across all core performance metrics this month. **Impressions** reached **1.1M** (+857%) and **clicks** increased to **42,516** (+713%), while maintaining a strong **CTR** of **3.84%** (+169.8%), indicating improved ad relevance and engagement.

Conversions surged to **21,951** (+2,613%), with an exceptional **conversion rate** of **51.63%** (+895.6%), while **cost per conversion** dropped to **ZAR 0.37** (-96.8%). Despite a **14.4%** decrease in spend (ZAR 8,120.37), cost-efficiency improved substantially.

Glossary

- Cost:** The total amount spent on Google Ads over the reporting period.
- Clicks:** The total number of times users clicked on your ad.
- Impressions:** The number of times our ad was seen.
- Conversions:** The number of actions completed by users after clicking our ad, such as Phone calls, Direction requests or Lead form submissions. This reflects campaign success.
- Average CPC (Cost Per Click):** The average amount paid for each click on our ad. It helps us understand the cost-efficiency of our traffic.
- Cost per Conversion:** The average cost to acquire one conversion. A lower value indicates a better return on our advertising investment.
- Conversion Rate:** The percentage of clicks that result in a conversion. A higher conversion rate indicates better ad performance and landing page experience.
- CTR (Click-Through Rate):** The percentage of people who saw our ad & clicked on it. Calculated as (Clicks ÷ Impressions) × 100. A key indicator of how relevant and compelling our ads are.

Meta Advertising Performance

Meta Ads

Key Insight:

Meta Ads saw a reduction in **spend** this month **ZAR 16,978.91** (-27.5%), alongside declines in **impressions 601K** (-8.3%), **reach 373.8K** (-21.8%), **link clicks 6,570** (-13.7%) and on-Facebook leads (1,483, -35.8%). Post engagement also dipped slightly to 156.4K (-9.1%), reflecting a pullback in overall campaign volume.

Despite lower delivery, efficiency improved in key areas — **CPC** decreased to **ZAR 0.87** (-4.7%) and **CTR** increased to **3.24%** (+33.5%), indicating stronger ad relevance and click intent. This suggests performance quality improved even as overall scale was reduced.
