

Marketing Report | November 2025

CANNIBISTERS
HERBAL APOTHECARY

Nov 1–30, 2025 compared to Oct 2–31, 2025

norton odonnell

This "Marketing Performance Report" breaks down the KPI's and metrics achieved in the month of November. The focus is both on paid ads as well as organic social media performance.

Table Of Content

- Google My Business
- Google Ads Performance
- Instagram Performance
- Meta Ads Performance
- LinkedIn Performance
- Klaviyo (Email Marketing) Performance
- Key Takeaways

Google My Business Performance

Google My Business Performance

Key Insight: November showed **steady engagement overall**, with **total interactions** holding strong at **1,352** (+2.4%) & **Views** holding strong at **8981** (+1.4%). Foot-traffic intent grew meaningfully — **direction requests jumped to 740** (+20.1%), and **phone calls increased to 104** (+18.2%), signalling stronger offline interest in visiting the shop. However, **website visits dropping to 508** (-13.3%), this **isn't a major decrease**, but a close eye will be kept on this throughout the month of December.

Glossary

- **Average rating** — The current average star rating of your Google reviews (lifetime metric).
- **Total review count** — The cumulative number of reviews on your Google profile (lifetime metric).
- **New Reviews** — The number of new reviews received during the reporting period.
- **Total Interactions** — The total actions taken on your profile: Phone calls + Direction requests + Website visits (during the period).
- **Direction Requests** — The number of times users tapped “get directions” to navigate to your location.
- **Phone calls** — The number of tap-to-call actions from your profile.
- **Views** — The total times your Business Profile was viewed on Google Search or Google Maps.
- **Website visits** — The number of clicks from your profile to your website.

Google Ads Performance

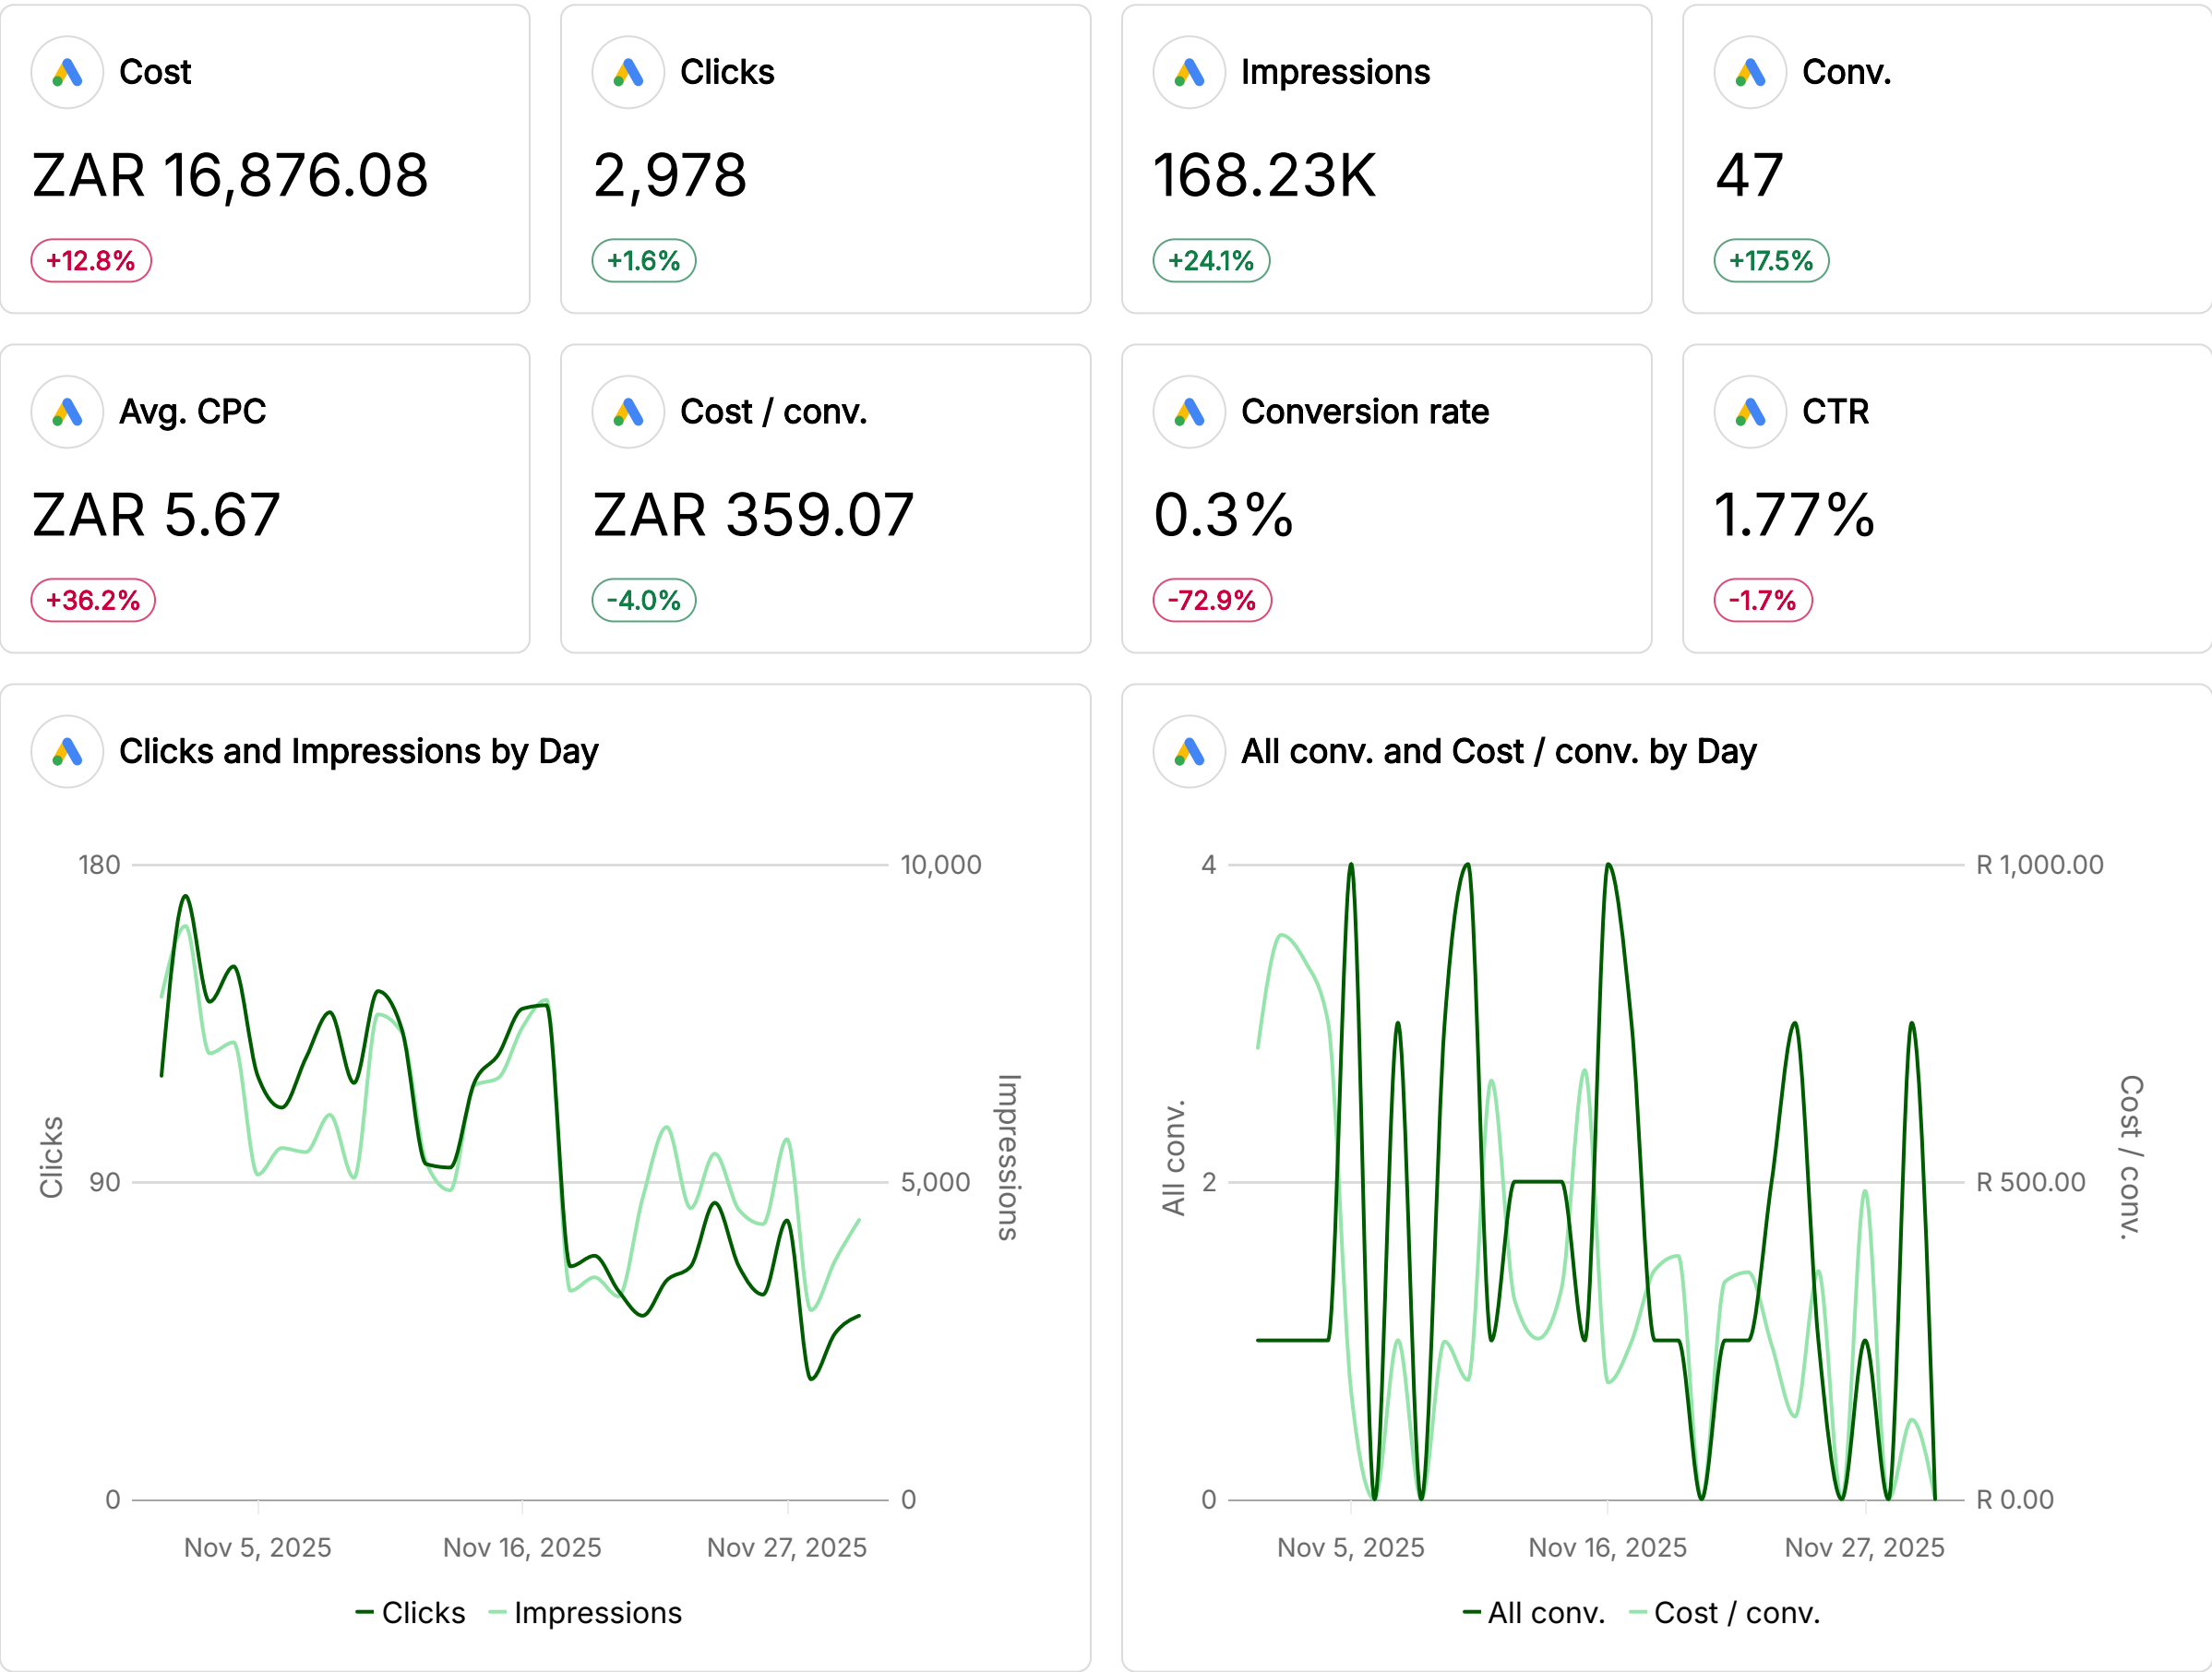

Google Ads Performance

Key Insight: Google Ads remained steady in most areas, with improved performance in **Conversions, Impressions & Clicks**. Due to November being Black Friday month, there is a lot of competition when it comes to Ads, this means that more companies are competing for the same ad placement. As a result of this, we saw an increase in our **cost per click to R5.67 (+36.2%)**, while our **Cost per Conversion stayed strong at R359.07 (-4%)**. **Conversion rate dropped by 72.9% to 0.3%**, which isn't great and suggests a close eye needs to be kept on our Campaigns and optimizations need to be made in December to target higher intent customers.

Glossary

- **Cost:** The total amount spent on Google Ads over the reporting period.
- **Clicks:** The total number of times users clicked on your ad.
- **Impressions:** The number of times our ad was seen.
- **Conversions:** The number of actions completed by users after clicking our ad, such as Phone calls, Direction requests or Lead form submissions. This reflects campaign success.
- **Average CPC (Cost Per Click):** The average amount paid for each click on our ad. It helps us understand the cost-efficiency of our traffic.
- **Cost per Conversion:** The average cost to acquire one conversion. A lower value indicates a better return on our advertising investment.
- **Conversion Rate:** The percentage of clicks that result in a conversion. A higher conversion rate indicates better ad performance and landing page experience.
- **CTR (Click-Through Rate):** The percentage of people who saw our ad & clicked on it. Calculated as (Clicks ÷ Impressions) × 100. A key indicator of how relevant and compelling our ads are.

Instagram Performance

Instagram Performance

Key Insight: Organic Instagram performance saw **major improvements** in the month of November. **All** metrics saw a solid increase, with **Views** seeing an increase of **32.9%**, **Reach** increased by **90.3%**, **Post Engagement** saw an increase of **44.5%**, **Engagement** increased by **40.9%**, **Link Clicks** were up by **17.5%** & **Video Total Play Time** saw an increase of **71.7%**.

This month was a solid win for our Instagram account, and I would attribute this to us posting amazing graphics, reels & engaging story's.

Glossary

- **Followers:** The number of new people who have followed your profile.
- **Views:** The total number of organic users who have interacted with your Profile
- **Reach:** The number of unique users who have seen your content.
- **Engagement:** The number of organic saves, comments and shares on your posts.

The Black Instagram logo refers to metrics that came through paid Instagram posts.

- **Post Engagement:** The number of paid likes, comments and shares on your posts.
- **Post Reactions:** The number of users that express their feelings towards a post/story without leaving a comment.
- **Video Total Play Time:** The total amount of time users spent watching our reels.
- **Video Plays at 50%:** The number of users that watched more than 50% of a Reel.

Meta Advertising Performance

Meta Ads

Key Insight: November saw a **strategic budget increase, as black friday causes higher competition when it comes to ad placement**, which successfully translated into stronger visibility and engagement across Meta. Impressions climbed **+49.7%** and reach jumped **+46.6%**, meaning the larger budget effectively expanded Cannibisters footprint to new audiences.

Engagement quality also strengthened, with **CTR rising to 2.96%** (+43.4%) and **link clicks** increased to **3,930** (+5.5%).

While cost per post engagement increased to **R0.12** (+56.4%) and CPC ticked up to **R0.86** (+13.1%), both remain well within expected ranges for a month with scaled investment and broader audience reach. On-Facebook leads remained stable at **1,338**, holding steady month-over-month performance.

Glossary

- **Amount spent:** The total amount spent on Meta Ads.
- **Impressions:** The total number of times our advertisement has been displayed on users' screens.
- **Reach:** The number of people who saw a sponsored story or Ad about your Page
- **CPM:** The cost per thousand impressions.
- **Link Clicks:** The number of times users click on a link within your ad.
- **Cost per Post Engagement:** The cost of each Engagement action on a post.
- **CPC:** The cost per click
- **CTR:** Click-through rate

LinkedIn Performance

LinkedIn Page

Key Insight: This month we gained a total of **60 new followers** (47 from paid ads & 13 organic). **Engagements increased by 110.8%**, which is a great increase when taking into account we only spent **25.7%** more than last month, as a result **Engagement rate** was nice & high at **11.84%**

Glossary

- **Organic Followers:** The amount of followers acquired through organic content.
- **Page views:** The total number of times a LinkedIn Page has been viewed by users.
- **Like Count:** The total number of new page likes.
- **Engagement:** A metric used to measure the rate of interaction and involvement with a LinkedIn Page's content.

Klaviyo (Email Marketing) Performance

Key Insight: November was another super successful month on Klaviyo. We had 3 campaigns go out, those being our November Newsletter and 2 Black Friday campaigns. There were **62,092 emails received** (+127.1%), **7,911 opened emails** (+28.9%) & **408 links clicked** within our emails (+78.2%). Our **open rate** dropped a bit to **12.74%** (-43.2%), however we saw a major increase in placed orders to **159 orders placed** (+44.5%). Our **placed order value hit R215k** (+33.9%), showing that last month wasn't just luck when it came to revenue generated. Our **average order value** did decrease a tiny bit to **R1353.46** (-7.4%), but this isnt something to worry about, as it is still quite a bit higher than Shopify average order value.

Glossary

- Received Email:** The total number of emails successfully delivered to recipients’ inboxes during a campaign.
- Opened Email:** The number of emails that were opened by recipients.
- Clicked Email:** The number of recipients who clicked at least one link within the email.
- Bounced Email:** Emails that could not be delivered to the recipient’s inbox.
- Opened Email Rate:** The percentage of delivered emails that were opened.
- Placed Order (Shopify):** The total number of confirmed customer orders placed during the reporting period.
- Placed Order Value (Shopify):** The combined monetary value of all orders placed by members that clicked a link on the email.
- Average Placed Order Value (Shopify):** The average spend per customer order.

October 2025 Key Takeaways

 Google My Business

Google My Business saw stronger offline intent, with direction requests and calls both climbing meaningfully, reinforcing Cannibisters as a high-interest physical destination. Website clicks declined slightly, something to monitor into December.

 Google Ads

Google Ads delivered higher impressions, clicks and conversions, but the Black Friday auction environment pushed CPCs up and reduced conversion rate efficiency — December will need tighter optimisation and high-intent targeting.

 Instagram

Instagram was a major win this month, with strong lifts across reach (+90%), views (+32%), engagement (+40%) and total play-time (+71%). Consistent creative quality and strong campaigns clearly paid off.

 Meta Ads

Meta Ads expanded our footprint effectively after the intentional budget increase, boosting reach and impressions by nearly 50%. Engagement quality improved too, with CTR up +43%. Costs rose as expected due to Black Friday competition.

 LinkedIn

LinkedIn saw healthy growth, adding 60 new followers and more than doubling total engagements (+110%), driven by efficient spend and consistent posting.

 Klaviyo

Klaviyo delivered another high-performing month, with a major jump in placed orders (+44%) and R215k in revenue generated from email — reinforcing email as a strong revenue driver for the brand.
